COURSEWORK

UNDERGRADUATE
Programming and Problem Solving
(C, Python, Java)
Data Structures
Database Management Systems
Operating Systems
Web Development
Cloud Computing

SKILLS

PROGRAMMING
Languages :
• C, Python, Java
Frontend :
• HTML, CSS, JavaScript, React.js
Backend :
• Express.js, Node.js, MongoDB, MySql,
Firebase, MongoDB, PostreSQL, Spring
Boot, REST API, Prisma, Cloudflare,
ThunderClient
Hybrid :
• Next.js, Turborepo
Operating Systems:
• Ubuntu, Kali Linux , Windows
Tools:
• ChatGPT , Blackbox AI

HOBBIES
• Listening to music
• Playing Cricket
• Cooking

CERTIFICATIONS

• Fundamentals of Database Engineering
• Fundamentals of Python Programming
• Spring Boot Intern Certificate from VMWare
• Python Data Structures and Algorithms

INTERNSHIP

VMWARE INTERN | SPRING BOOT DEVELOPER
- Developed a FlightAware Clone website using Spring Boot and Skyscanner API .
- This website features home screen and the ability to access the flight details like flight timings,journey cost.

PROJECTS

SPOTIFY CLONE | REACT.JS | NODE.JS | EXPRESS.JS | FIREBASE

- Developed a user-friendly website using ReactJS and Node.js, featuring a personalized songs for users to relax and enjoy the music.
- Crafted a custom Songs API, providing fast, secure access to extensive music content.
- Link : **Spotify**
